12 Preamble

13 WHEREAS, In March 2012, President Obama announced plans to create the
14 National Network for Manufacturing Innovation to revitalize the manufacturing base
15 in the United States by establishing up to 15 centers for manufacturing innovation
16 throughout the country; and

17 WHEREAS, In March 2013, the pilot project, the National Additive
18 Manufacturing Innovation Institute, awarded funding totaling \$4,500,000 for seven
19 applied research and development partnership projects and, in January 2014, awarded
20 another \$9,000,000 toward 15 projects that will provide \$10,300,000 in matching cost
21 share; and

22 WHEREAS, Legislation has been introduced in the United States Senate and
23 House of Representatives to establish the Network for Manufacturing Innovation
24 Program, with an appropriation of \$600,000,000, for up to 45 centers that are
25 envisioned as regional consortia of businesses, educational institutions, and
26 government agencies that will share existing resources and work together to pilot new
27 products and manufacturing processes, attract jobs, and encourage investment and
28 production in the United States; and

29 WHEREAS, Manufacturing plays a vital role in the economy and has a strong
30 multiplier effect, with each manufacturing job estimated to create nearly three
31 additional jobs in other sectors; and

32 WHEREAS, Additive manufacturing processes, including 3D printing, are
33 already used in a variety of industries and have the potential for use in unlimited
34 additional areas, including defense contracting, biomedical research and patient care,
35 apparel design, and pharmaceutical production; and

36 WHEREAS, The northeastern region of Maryland has significant additive
37 manufacturing technical expertise and infrastructure, including an additive
38 manufacturing facility at Aberdeen Proving Ground, known as the Rapid Technologies

1 and Inspection Branch, which has been used to design, build, test, and advance new
2 technologies quickly, as well as for training students in science, technology,
3 engineering, and mathematics (STEM) fields; and

4 WHEREAS, The northeastern region of the State has leading educational
5 institutions at all levels, including Towson University, Harford Community College,
6 Cecil College, and the Cecil County and Harford County public school systems; and

7 WHEREAS, There is a need to improve the accessibility of and connections
8 between the existing infrastructure, expertise, and educational resources in the region
9 for entrepreneurs, innovators, and small businesses in the developing and growing
10 area of additive manufacturing; now, therefore,
