10. Description and Purpose of Grantee Organization (Limit Length to Visible area)				
<p>Habitat for Humanity of the Chesapeake is a non-profit organization that works with people from all faiths and walks of life to build and rehab decent houses for affordable homeownership throughout Anne Arundel County and the Baltimore metro region. We sell our homes at no-profit, through no interest mortgages to qualified home buyers who earn 25-50% of the area median income. Our home buyers must demonstrate need, be income eligible, and have a willingness to partner. Our vision is to eliminate poverty housing in the region through neighborhood revitalization. To accomplish this, we work with partners throughout our communities, including businesses, other non-profits, government entities, and the faith community.</p>				

11. Description and Purpose of Project (Limit Length to Visible area)

We plan to rehabilitate 35 homes overall in the following three neighborhoods: Mt. Winans, Brooklyn, and Curtis Bay. We would use this funding for acquisition and construction to off-set the overall cost. These homes would then be sold to low-income homeowners that have completed our sweat equity requirements and buyer education component.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

The design costs specified above included the pre-development costs of zoning, subdivision, and permitting.

Habitat for Humanity of the Chesapeake builds affordable housing and revitalizes neighborhoods in Baltimore City, Baltimore County, Anne Arundel County, and Howard County. We have built more than 365 homes, providing over 1,000 people with affordable and stable housing. This year, we expect to complete 44 homes and hope to amp up our production to 54 homes next year. We have calculated that for every dollar of public funding we receive, we leverage \$7 in private support. In addition, we engage about 4,000 volunteers per year and expect to increase that number to 5,000 in this new year.

Building in the Mt. Winans community in Southwest Baltimore is a unique opportunity for us. We have worked extensively with neighborhood residents over the past year to ensure they are on board with our build plan. The area is surrounded by natural borders, comprised of some renters and some homeowners, and has a strong community association; all ideal factors for the success rate of a new development. We recently completed construction and transfer of ownership for a new duplex house with assistance of 2011 Bond Bill funding and have design complete for a nine unit row house development.

We are continuing our work in the Brooklyn/Curtis Bay neighborhood, with plans to build six homes along Church Street on land we own. We have built 42 homes in the Brooklyn community, primarily along Jack, Stohl, and Jeffrey streets. While we face larger challenges in this neighborhood, due in part to the large number of vacant houses, we will continue to acquire and rehabilitate homes for homeownership as we play our part in bringing new life to the community. Our five-year plan for Brooklyn includes acquisition and rehab of 25 additional homes on Jack, Stohl, and Jeffrey.
