11 Article – Transportation

12 Section 8–657

13 Annotated Code of Maryland

14 (2015 Replacement Volume and 2015 Supplement)

15 Preamble

16 WHEREAS, The Maryland General Assembly approved full funding, design, and
17 construction of the Watkins Mill Road Interchange in the Consolidated Transportation
18 Program (CTP) for fiscal years 2015 through 2020, including \$159.4 million for the project,
19 a projected start date of spring 2016, and projected completion in spring 2019; and

20 WHEREAS, The CTP for fiscal years 2016 through 2021 has substantially altered
21 the original project by decreasing funding by \$30 million, delaying construction and
22 completion, and significantly decreasing the scope of the project in terms of traffic relief
23 and promotion of economic development; and

EXPLANATION: CAPITALS INDICATE MATTER ADDED TO EXISTING LAW.

[Brackets] indicate matter deleted from existing law.

1 WHEREAS, The Watkins Mill Road Interchange as originally planned will support
2 increased economic development, reduce existing congestion at the I-270 and Maryland
3 124 interchange, and provide access from I-270 to the Metropolitan Grove MARC Station;
4 and

5 WHEREAS, The Watkins Mill Road Interchange will bring over 250,000 square feet
6 of mixed-use real estate, 930,000 square feet of office space, and 400 hotel rooms; and

7 WHEREAS, Several approved projects are contingent on a full diamond interchange
8 to bring critical traffic relief to the area, including a FedEx distribution center estimated
9 to bring 300 new jobs to the region, an expansion of Lockheed Martin offices and
10 employment, and a relocation of the headquarters of the National Humane Society of the
11 United States; and

12 WHEREAS, The area adjacent to the Watkins Mill Road Interchange has attracted
13 significant employers that made investment decisions that presumed construction of a full
14 interchange based on public commitments by the State of Maryland and a \$4.9 million
15 investment from Montgomery County; and

16 WHEREAS, Properties on the east and west sides of I-270 at the location of the
17 proposed highway improvement have become hubs for biotechnology companies and
18 professional services; and

19 WHEREAS, Failure to construct the original full interchange at Watkins Mill Road
20 will forfeit hundreds of jobs and untold revenue from increased economic development in
21 the surrounding area; and

22 WHEREAS, Failure to honor the commitments made by the State to Montgomery
23 County would compromise the project and decrease the potential for much needed jobs and
24 economic growth in the upcounty region of Montgomery County; now, therefore,
