**11. Description and Purpose of Project (Limit length to visible area)**

The Takoma Park Library was built in 1955 and was last updated 26 years ago. Computer center rooms were added in 2005, connecting the library building to the adjacent Takoma Park Community Center. The 9,400 sq. ft. library and computer center will be expanded to 18,800 sq. ft. The expansion will allow this beloved community institution to meet current building codes and ADA requirements while not reducing space for books. It will also provide for dedicated space for young adult books, group study and the library's daily programs in areas separate from the children's room. The space will be designed to be flexible so that it can be adapted over time. The exterior design is attractive and appropriate for its setting.
