10. Description and Purpose of Organization (Limit length to visible area)				
<p>Our mission is to provide exceptional services to ensure that all people with disabilities/special needs have equal opportunity to live, learn, work &amp; play in their communities. Built on a strong reputation as an effective collaborator with local leaders, we design &amp; offer intensive services for those with disabilities &amp; their caregivers. For 75 years in center &amp; home-based locations in MD, we have provided best practice to all of our clients, (e.g. children, seniors, veterans &amp; their families) offering a holistic, person-centered care. We provide community-based services: 1)early childhood education for children with disabilities &amp; those typically developing (some risk developmental delays due to low economic status), 2) caregiver respite, 3) support for wounded warriors, veterans &amp; their families e.g. vet employment &amp; caregiver training, &amp; 4) adult medical day.</p>				

**11. Description and Purpose of Project** (Limit length to visible area)

Conceived & opened as a public private partnership with Montgomery Co., MD State & the federal govt., the Easter Seals Harry & Jeanette Weinberg Inter-Generational Center is, as designed, impacting the challenges of the community and the critical needs of its citizens. It is also internationally recognized for its innovative service delivery model & the excellence of its outcomes. This internal renovation of 3 floors will allow us to (a) create 6 new classrooms to expand our capacity from 98 to 158 (60 new children a year, including those with severe disabilities, of low-income, and of wounded warriors), (b) launch a new intensive early intervention autism program for children ages 18-48 months, (c) create additional space for our rapidly growing respite and veteran workforce development programs, (d) build the Cohen Military Veteran Clinic to provide mental health support for veteran families free-of-charge, & (e) include security, access, and HVAC upgrades.

The Easter Seals Child Development Center (CDC) provides inclusive early childhood education to children with disabilities and typically developing peers, 6 weeks to 5 years. We prepare children for kindergarten readiness, academic success and lifelong learning. Emphasizing both learning and caring, the CDC recognizes and respects individual needs, cultures and learning styles, providing an environment where children of all abilities can participate. Classrooms follow an inclusion model, based on research and best practices, demonstrating that children with disabilities benefit most when participating with their typically developing peers. It will soon include our new intensive intervention autism program for children ages 18-48 months, which is being designed to become a first-of-its-kind national model. Among the unique features of the CDC are: (1) the inter-generational program benefits children and seniors by enhancing the socialization/stimulation of both in a uniquely shared site; (2) the Little Warriors program offers children of wounded warriors the opportunity to enroll in the CDC, providing support to the family through the recovery process. The program allows children the healing benefit of regular interaction with people with disabilities, teaching respect and acceptance that will in turn help the Little Warriors to better adjust and emotionally manage their family's new circumstances; and (3) the In-Center and Community Respite Program offers children with special needs and their siblings (and Little Warriors) planned educational and social stimulation through group interaction, allowing caregivers a day of respite each month. When the Center was designed, we were not running many of the programs we offer today, including the veterans and homeless veterans workforce development programs, and our expanded respite activities. The need is growing. We must provide more direct services to individuals of all ages living with disabilities, and their caregivers. A new addition to the third floor of our Inter-generational Center will be the Cohen Veteran Network (CVN) Military Family Clinic. The clinic will provide behavioral health services to 500 clients in the first year. It will bring \$10,000,000 in out-of-state funding to Maryland. And, it will create roughly 2 dozen new jobs. Last year, 2,109 veterans were coached in our workforce development and employment programs and we were able to place 312 veterans in full-time positions; 1116 individuals/caregivers were served by Respite; 222 children and families were served in our inclusive child development center; 112 individuals utilized our assistive technology program; and more than 175 clients/caregivers were served by our adult day services. Our clients include many of the most at risk populations in our community: children with autism and other special needs, seniors with Alzheimer's disease and other age related disabilities, wounded warriors and homeless veterans, family caregivers and others. We urgently need to build out and renovate to provide additional classrooms and office space for direct services, and create additional space for our rapidly growing respite and veteran workforce development programs.
