House Bill 562 (Delegate K. Young, *et al.*)
Health and Government Operations

Hospitals - Patient's Bill of Rights

This bill substantially expands the rights that must be included in a hospital's patient's bill of rights, and it specifies that a hospital administrator must provide each patient with a written copy of the hospital's patient's bill of rights.

Fiscal Summary

State Effect: Potential minimal increase in general fund expenditures for some State hospital facilities to provide translators, interpreters, or other accommodations. The bill is not anticipated to materially affect compliance or enforcement activity for the Office of Health Care Quality. Revenues are not affected.

Local Effect: None.

Small Business Effect: None.

Analysis

Bill Summary: If a patient (1) does not speak English; (2) requires the patient's bill of rights in an alternative format; or (3) is illiterate; a translator, interpreter, or other accommodation must be provided to assist the patient in understanding and exercising his or her rights. Copies of the patient's bill of rights must be conspicuously posted on the hospital's website and in areas of the hospital accessible to patients. A hospital administrator must also provide annual training to all patient care staff members to ensure the staff's knowledge of the patient's bill of rights.

Current Law/Background: Each hospital administrator is responsible for making available to each patient in the hospital a copy of the patient's bill of rights that the hospital adopts under Joint Commission guidelines. The patient's bill of rights must include a statement that the patient has a right to expect and receive appropriate assessment, management, and treatment of pain as an integral component of the patient's care.

According to the Maryland Hospital Association, each hospital has a patient's bill of rights in place that conforms to Joint Commission requirements, and the document is one of the first items reviewed by a surveyor during hospital licensure or compliance surveys.

Additional Information

Prior Introductions: Similar legislation, SB 660 of 2017, received a hearing in the Senate Finance Committee and was subsequently withdrawn. Its cross file, HB 808 of 2017, received a hearing in the House Health and Government Operations Committee and was subsequently withdrawn. SB 661 and HB 587 of 2016, also similar legislation, received a hearing in the Senate Finance and the House Health and Government Operations committees, respectively, and were subsequently withdrawn.

Cross File: SB 530 (Senator Young, *et al.*) - Finance.
