House Bill 918
Ways and Means

(Delegate Fisher, *et al.*)

Calvert County - Personal Property Tax - Exemption

This bill exempts specified personal property in Calvert County from taxation. **The bill takes effect June 1, 2018, and applies to taxable years beginning after June 30, 2018.**

Fiscal Summary

State Effect: None.

Local Effect: Calvert County personal property tax revenues decrease by a significant amount beginning in FY 2019. Under one set of assumptions, personal property tax revenues decrease by approximately \$2.6 million annually, beginning in FY 2019. Expenditures are not affected. **This bill imposes a mandate on a unit of local government.**

Small Business Effect: Potential meaningful.

Analysis

Bill Summary: The bill exempts all personal property in Calvert County from the county personal property tax except (1) operating personal property of a railroad or public utility; (2) property used to provide a cable television, data, or telecommunications service, including all fiber-optic and other cable wire systems, cellular telephone towers, and wireless appurtenances attached to or installed on cellular telephone towers; and (3) electronic bingo machines authorized to operate in the county. In addition, the bill specifies that personal property under a specified payment in lieu of taxes agreement will be subject to the county personal property tax on the termination of the agreement.

Current Law: County and municipal governments impose property taxes on business-owned personal property. In Calvert County, the personal property tax rate is set at \$2.23 per \$100 of assessed value in fiscal 2018. **Appendix – Personal Property Taxation in Maryland** provides an overview on how personal property taxes are imposed and collected in Maryland. The Appendix also includes information on personal property tax rates and the assessable base amounts for fiscal 2018.

Local Fiscal Effect: Calvert County collected approximately \$2.7 million in business personal property taxes in fiscal 2016 and is projected to collect \$3.0 million in fiscal 2018. Exempting a portion of business personal property from county taxation could decrease county revenues by approximately \$2.6 million annually beginning in fiscal 2019. This estimate assumes that specified telecommunications property and electronic bingo machines comprise 15% of the county’s business personal property assessable base.

The State Department of Assessments and Taxation (SDAT) estimates that the Calvert County business personal property assessable base will total approximately \$158.9 million in fiscal 2018 and \$155.0 million in fiscal 2019. SDAT currently does not have data as to the amount of personal property owned by various telecommunications services referenced in the bill, nor does it have an estimated value of electronic bingo machines in the county. The State Lottery and Gaming Control Agency advises that there are 460 electronic bingo machines at the following locations – Chesapeake Beach Resort and Spa (278), Abner’s Crab House (85), Traders (87), and American Legion Post #206 (10) – in Calvert County; however the agency does not have data as to the assessed value of these machines.

To the extent the actual personal property assessable base, including the amount of telecommunications property within the assessable base, differs from the estimate, the effect of the property tax exemption will vary accordingly.

Small Business Effect: Small businesses in Calvert County will not be subject to personal property taxes for certain business personal property beginning in fiscal 2019. As a point of reference, for fiscal 2016, there were 2,337 personal property tax reports filed with SDAT. The average personal property assessment was \$65,364, resulting in an average tax amount of \$1,458.

Additional Information

Prior Introductions: Similar bills were introduced during the 2014, 2015, 2016, and 2017 sessions. HB 1426 of 2017, HB 434 of 2016, HB 69 of 2015, and HB 573 of 2014 each received a hearing in the House Ways and Means Committee, but no further action

was taken. SB 841 of 2015 was assigned to the Senate Rules Committee, but no further action was taken.

Cross File: None.

Appendix – Personal Property Taxation in Maryland

In Maryland, there is a tax on business-owned personal property that is imposed and collected by local governments. Personal property generally includes business property such as furniture, fixtures, office and industrial equipment, machinery, tools, supplies, inventory, and any other property not classified as real property. To provide for uniform assessments, the State Department of Assessments and Taxation (SDAT) is responsible for assessing all personal property. Each county or municipal government is responsible for issuing the tax bills and collecting the tax. The tax year begins on July 1 and ends on June 30. The personal property tax has been a local tax exclusively since 1984 when the State tax rate on personal property was set at zero.

At the beginning of each calendar year, SDAT notifies business entities on record that a personal property tax return must be filed by April 15. This tax return must include personal property located in Maryland as of January 1, the date of finality. The “date of finality” is the date used to determine ownership, location, value, and liability for tax purposes. Beginning in 2017, all tax returns will be filed electronically. An annual report fee is required to be paid to SDAT with the personal property tax return. The annual report fee is for the privilege of maintaining the legal entity’s existence in the State. **Exhibit 1** identifies the amount of the report fee that each legal entity is required to pay.

Exhibit 1 Annual Reporting Fee Requirement

<u>Business Entity</u>	<u>Fee</u>	<u>Business Entity</u>	<u>Fee</u>
Stock Corp	\$300	Domestic Statutory Trust	\$300
NonStock Corp	0	Foreign Statutory Trust	300
Foreign Insurance Corp	300	Real Estate Investment Trust	300
Foreign Interstate Corp	0	Certified Family Farm	100
Limited Liability Company	300	Sole Proprietorship	0
Limited Liability Partnership	300	General Partnership	0
Limited Partnership	300	Amended Return	0

Personal property, except inventory, is assessed based on the original cost less an annual depreciation allowance. The depreciation rate is determined based on the category of property. Seven rate categories (A through G) each pertain to different types of personal property. Except for data processing equipment and canned software, property may not be depreciated below 25%. For example, an item that was purchased for \$400 would be

reduced by the depreciation factor each year until it reaches a minimum of \$100. Inventory is valued at its fair average value using the cost or market value, whichever is lower.

Certain personal property is exempt by statute or local law. Exemptions generally fall into two categories: those mandated by State law and those that are optional to local governments. There are certain organizations or groups whose personal property is exempt throughout the State. These organizations include religious groups, governmental entities, nonprofit hospitals, cemetery and mausoleum companies, and certain other groups that meet specified strict use criteria. In addition, State law requires that certain types of personal property be fully exempt throughout the State. These include aircraft, farming implements, residential (nonbusiness) property, most registered vehicles, boats not more than 100 feet in length, hand tools of mechanics or artisans, and intangible personal property (*e.g.*, stocks, bonds, patents, goodwill, trademarks, etc.).

State law authorizes local governments to exempt certain types of business personal property. The county or municipality where the property is located may authorize a full or partial exemption. The most significant categories that may be exempt from the personal property tax are commercial inventory, manufacturing and research and development inventory, and manufacturing and research and development machinery. Most counties offer exemptions for 100% of all three of these categories, but tax other types of business personal property. In addition, six counties (Dorchester, Frederick, Garrett, Kent, Queen Anne's, and Talbot) have elected to exempt all business personal property from county taxation. Garrett County does not tax business personal property, however the county does tax property of non-utility generators at the county personal property tax rate.

Personal Property Tax Rates and Assessable Base Amounts

As shown in **Exhibit 2**, the statewide assessable base for business personal property totals \$13.1 billion in fiscal 2018. Among counties that impose the business personal property tax, the assessable base ranges from a high of \$2.4 billion in Montgomery County to a low of \$38.7 million in Somerset County. Tax rates on business personal property range from \$2.0875 in Worcester County to \$5.62 in Baltimore City.
