<b>10. Description and Purpose of Organization</b> (Limit length to visible area)		
Chesapeake Shakespeare Company is the 15th largest American Shakespeare company, annually reaching 32,000+ patrons, students, teachers, and community members. We bring the plays of Shakespeare and other classic playwrights into the lives of as many people as possible in ways that are personally meaningful, educationally inspiring, and theatrically compelling. We pursue artistic excellence, ensure accessibility, engage our communities, and promote regional awareness of classic theatre. With previous State assistance, we successfully anchored our institution in downtown Baltimore, initiating a neighborhood transformation and serving a far broader audience. In summary, CSC seeks a bond bill to support the construction of a walkover, an ADA compliant pedestrian bridge that literally connects our two worlds: artistic excellence and Shakespeare education.		

**11. Description and Purpose of Project** (Limit length to visible area)

In January 2017, CSC moved into two floors of the Merchants Club Building in Baltimore City, adjacent to our theater, establishing a theatre & education campus, open to all citizens of Maryland (and beyond). The Studio at CSC exponentially expands our education program, and new administrative offices have improved efficiency. Our two spaces are not connected, requiring actors, students, and staff to navigate the street, which is busy with vehicle and pedestrian traffic, and exposed to the weather. Travel between buildings is especially time-consuming and cumbersome for student groups, and less controlled for safety or ADA accessibility. A walkover connecting our spaces will solve these challenges (further identified in Box 28) and allow for direct travel between them. This request includes all phases of work from design through completion, as well as additional upgrades to the theater that would enhance and optimize both performer and audience experiences.

**28. Comments**

This project is essentially shovel-ready. We have already secured a hard cash match and funds from a Baltimore City General Obligation Bond in support of this project as well as State and private foundation funding. Remaining private funds are in the process of being requested as our bill works through the process; the State's imprimatur on our project has already aided in solicitations and will only help our cause progress. As we have been directed by our Board of Trustees, we will not "break ground" until at least 90% of funds have been raised.

**Purpose of The Studio at Chesapeake Shakespeare Company:**

The Studio at CSC, housed in our new space and currently serving approximately 1,000-1,500 children annually, serves many purposes. First, administrative offices have moved to the third floor, providing additional space for our growing staff and administrative infrastructure. However, communication and coordination between the administrative staff, now in the Merchants' Club, and the box office and production staffs, still in the theater, is disconnected and less efficient. Second, our artistic programming had so outgrown our single space for performances and rehearsals that it was difficult to find enough time on the stage for other programming. The Studio's upper level provides an extra rehearsal space and has become the home of workshop, experimental, and small-scale performances. Lastly, The Studio is the home of greatly expanded education classes for local youth and adults, professional development training for regional artists and educators, and a national program for artistic certification in several tracks.

**A pedestrian bridge between CSC's Theater and The Studio will:**

- (1) ensure the safety of students traveling between buildings;
- (2) facilitate ADA accessibility and compliance with all applicable laws;
- (3) provide ease of access;
- (4) provide an efficient avenue to transport large groups between buildings;
- (5) protect the privacy, business, and rights of the Merchants' Club building's other tenants (as outlined in our lease); and
- (6) allow the administrative functions of CSC to easily access the box office, performance, and production areas and personnel, improving communication and coordination.

**Lease Length:**

With regard to the lease on The Studio (with 206 E. Redwood Street, LLC), our landlord and executive management are amenable to extending the existing lease to 15 years should CSC be awarded state funding. This would fulfill the requirement of the project's longevity, ensuring the safety of the State's investment in our project, our company, and our neighborhood.
