10. Description and Purpose of Organization (Limit length to visible area)		
<p>The City of Takoma Park is a municipal government providing services to 18,000 residents, including public works, police, recreation, housing and community development, and library services. The Library's books, media and programming strive to meet the City's goals of "A Livable Community For All" by providing special services for children and residents learning English, applying for jobs, etc., and once renovated, would also meet Americans with Disabilities Act requirements and provide needed space for teens, group study and programs. Renovation of the Library meets the goals of "Fiscally Sustainable Government" by maintenance of infrastructure and reduction of utility costs, and "Environmentally Sustainable Community" by renovation or replacement of outdated and inefficient HVAC systems, windows and furnishings.</p>		

11. Description and Purpose of Project (Limit length to visible area)

The Takoma Park Library was built in 1955 and was last updated 29 years ago. Computer Center rooms were added in 2005, connecting the Library building to the adjacent Takoma Park Community Center. The 9,400 sq.ft. library and computer center will be expanded to approximately 18,800 sq.ft. The existing library building will be rebuilt, so that the floor level of the new facility will be raised to that of the Community Center, a requirement following a recent flood plain study. The rebuilding and expansion will allow this beloved community institution to meet current building codes and ADA requirements while not reducing space for books. It will also provide dedicated space for young adults, group study, and the Library's daily programs in areas separate from the children's room. The space will be designed to be flexible so that it can be adapted over time. The exterior design will be attractive and appropriate for its setting.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.
