**11. Description and Purpose of Project (Limit length to visible area)**

Funding is requested for the acquisition, planning, design, construction, repair, renovation, site improvement and capital equipping of the athletic facilities at Woodlawn High School including performing a flood study to determine the flood plane impacts of the baseball and softball field renovations, the relocation and reconstruction of the baseball and softball fields, and other athletic facility, building, and site improvements. Woodlawn High School fields highly competitive teams with strong participation. This funding supports the student population and the local community since these fields are utilized by Baltimore County Public Schools students and the Baltimore County Department of Recreation and Parks.

**28. Comments**

These baseball and softball fields are located within a local flood zone that is created by the 'Dead Run' stream that flows across the property. These fields were subject to approximately seven feet of flood waters in July of 2010. The installation of flood prevention measures at this site is not feasible.
