Analysis

Current Law: Approximately 27 student financial aid programs are administered by the Office of Student Financial Assistance (OSFA) within the Maryland Higher Education Commission (MHEC). Annually, OSFA grants more than \$111 million to more than 65,000 students using a staff of 13.

Background: Eagle Scout is the highest rank a Boy Scout can earn. To achieve the rank, a Boy Scout must fulfill leadership, service, and outdoor skills requirements. According to *Scouting Magazine*, in 2018, 1,051 individuals in Maryland earned their Eagle Scout.

The Girl Scout Gold Award is the highest award a Girl Scout can receive and is the equivalent of a Boy Scout earning recognition as an Eagle Scout. In addition to various prerequisites, a Girl Scout must design and complete a Gold Award project that meets a community need in order to earn the award. More than one million Girl Scouts have earned the Gold Award or its equivalent since 1916.

State Expenditures: General fund expenditures increase by \$50,800 in fiscal 2021 for one-time contractual costs associated with enhancements to MHEC's scholarship system, known as the Maryland College Aid Processing System, necessitated by the bill. The system must be upgraded to add the new scholarship to it.

Beginning in fiscal 2022, general fund expenditures increase by \$200,000 annually due to the mandated appropriation for the scholarship. This funding is sufficient to award \$2,000 scholarships to 50 Eagle Scouts and 50 Girl Scout Gold Award recipients each year on a first-come, first-served basis.

MHEC advises that a full-time administrative specialist is needed at an estimated annual cost of \$60,000 to administer the scholarship. However, the Department of Legislative Services advises that, because the number of annual awards is limited to 100, the scholarship amount is predetermined, and the scholarship qualifications are uncomplicated, OSFA can make awards under the new program with existing personnel. Even so, adding new responsibilities to MHEC's fully subscribed staff eventually requires additional staff.
