7 Preamble

8 WHEREAS, The Maryland Health Care Commission has been designating the
9 State’s patient safety center since 2009; and

10 WHEREAS, The Maryland Patient Safety Center, Inc., has been designated by the
11 Maryland Health Care Commission as the State’s patient safety center through April 2025;
12 and

13 WHEREAS, The vision of the Maryland Patient Safety Center, Inc., the
14 State–designated patient safety center since its inception, is to be a model of patient safety
15 innovation and implementation and to convene providers, patients, and families across the
16 health care continuum to prevent avoidable harm and provide safe and equitable health
17 care for all; and

18 WHEREAS, The Maryland Patient Safety Center, Inc., has convened and facilitated
19 successful, results–driven quality improvement and patient safety initiatives focused on
20 decreasing lengths of stay and transfers for infants with neonatal abstinence syndrome,
21 increasing rates of women with opioid use disorder in treatment at the time of delivery,
22 reducing primary cesarean section rates, improving sepsis survival, reducing injuries
23 related to falls in long–term care facilities, and reducing facility–acquired infections in
24 hospitals and long–term care facilities; and

25 WHEREAS, The COVID–19 pandemic has stressed Maryland’s health care
26 workforce and led to a severe staffing shortage, nearing 2,600 nursing vacancies, and in
27 response, the Maryland Patient Safety Center, Inc., has collaborated with the Armstrong
28 Institute for Patient Safety and Quality at The Johns Hopkins University to deliver Caring
29 for the Caregiver, a training program focused on peer support, resiliency, and emotional
30 well–being of the health care workforce with the goal of decreased turnover and optimal
31 safety for providers and patients alike; and

32 WHEREAS, Racial and ethnic disparities persist in maternal health care and
33 present a patient safety concern, as shown in the 2020 Maryland Mortality Review
34 Committee report, which demonstrated that the maternal mortality rate from 2014 to 2018
35 was 18.4 per 100,000 live births for all races, but 8.8 for white Marylanders and 35.1 for
36 Black Marylanders; and

37 WHEREAS, The Statewide Integrated Health Improvement Strategy includes
38 maternal and child health as one of three population health priorities and the State has

1 committed to reducing the overall severe maternal morbidity rate by 19% by 2026, focusing
2 on closing the racial gap by lowering the Black (non-Hispanic) rate by 20%; and

3 WHEREAS, Through a 2-year collaborative agreement, the Maryland Patient
4 Safety Center, Inc., supported 31 Maryland birthing hospitals in achieving an aggregate
5 decrease of primary cesarean sections by 5.1% during the collaborative period with a total
6 cost savings of \$2.6 million; and

7 WHEREAS, Health equity is a priority for the Maryland Patient Safety Center, Inc.,
8 and, through partnerships with local experts, it created the Maternal Health Equity Project
9 to educate and develop resources for nonobstetric providers on maternal morbidity, racial
10 bias, and the value of the patient's voice and experience; now, therefore,
