## CHAPTER \_\_\_\_\_

1 AN ACT concerning

2 **State Retirement and Pension System – Investment Climate Risk – Fiduciary**  
3 **Duties**

4 FOR the purpose of requiring a fiduciary of the State Retirement and Pension System to  
5 consider certain climate risks on the assets of the several systems to ensure a  
6 long-term sustainable portfolio; requiring a climate risk assessment to include  
7 certain actions to determine the level of climate risk in the investment portfolio of  
8 the several systems; requiring the Chief Investment Officer for the State Retirement  
9 and Pension System to review and manage investments of the several systems based  
10 on the climate risk assessment; requiring the Chief Investment Officer to identify  
11 certain investment opportunities, develop transition assessments in certain sectors,  
12 and evaluate investment managers under certain circumstances; requiring that the  
13 policies of the Board of Trustees for the State Retirement and Pension System  
14 address climate risk in the investment of system assets through certain actions;  
15 requiring actions taken under this Act to be included in a certain report; providing  
16 that the Board of Trustees, or any other fiduciary of the several systems, may not be  
17 held liable for certain actions under certain circumstances; providing that nothing  
18 in this Act shall require the Board of Trustees to take certain actions unless certain  
19 circumstances exist; and generally relating to investment climate risk in the State  
20 Retirement and Pension System.

4 Section 21–116.1

5 Annotated Code of Maryland

6 (2015 Replacement Volume and 2021 Supplement)

7 Preamble

8 WHEREAS, With 3,100 miles of shoreline, Maryland is the fourth most vulnerable  
9 state to suffer the effects of sea–level rise associated with climate change; and

10 WHEREAS, Rising sea levels and increased storm intensity could have devastating  
11 and far–reaching impacts on the Atlantic coast and the Chesapeake Bay ecosystem that  
12 affect the environmental, recreational, and economic benefits enjoyed by Maryland and her  
13 visitors; and

14 WHEREAS, Although Maryland’s coastal areas may be considered particularly  
15 vulnerable, all areas of the State are at risk due to climate change’s effect on the severity,  
16 frequency, or distribution of existing issues that are impacted either directly or indirectly  
17 by temperature and precipitation; and

18 WHEREAS, In the fall of 2019, Maryland released a comprehensive, economy–wide  
19 draft plan to dramatically reduce greenhouse gas emissions that contribute to climate  
20 change; and

21 WHEREAS, According to major institutional investors around the country,  
22 climate–related risk is investment risk; and

23 WHEREAS, Investors are already responding positively to investment opportunities  
24 that show significant progress on the management of climate–related risk, including  
25 transition plans to a net–zero economy; and

26 WHEREAS, State, national, and global transitions to increased use of renewable  
27 technology presents a significant investment opportunity that can be harnessed to support  
28 the retirement security of the over 400,000 participants in the State Retirement and  
29 Pension System; now, therefore,

30 SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND,  
31 That the Laws of Maryland read as follows:

32 **Article – State Personnel and Pensions**

33 21–116.

1 (e) (1) Consistent with its fiduciary duties, the Board of Trustees shall include  
2 policies in the investment policy manual adopted under subsection (c) of this section  
3 regarding the management of risk, including **THE MANAGEMENT OF** climate risks **IN**  
4 **ACCORDANCE WITH § 21–116.1 OF THIS SUBTITLE**, in the investment of system assets,  
5 and shall address:

6 (i) investment principles, guidelines, and policies that govern the  
7 selection and retention of the investments of the several systems, including proxy voting  
8 and engagement guidelines; and

9 (ii) a policy that proxy votes and sample due diligence  
10 questionnaires for prospective managers be published on the State Retirement Agency’s  
11 website.

12 (2) (i) Consistent with its fiduciary duties, on or before January 31,  
13 2019, and every year thereafter, the Board of Trustees shall submit a report on the risk  
14 assessment of the several systems, including climate risk, in accordance with **§ 21–116.1**  
15 **OF THIS SUBTITLE AND § 2–1257** of the State Government Article, to the General  
16 Assembly.

17 (ii) The assessment shall:

18 1. identify recent studies or actions by other U.S. state public  
19 pension funds, financial institutions, or risk experts, including those related to disclosure,  
20 risk assessment, investment principles, or other related issues or activities;

21 2. based on the information obtained in item 1 of this  
22 subparagraph, recommend best practices and consider whether these best practices can be  
23 incorporated into the investment policy manual;

24 3. examine the potential magnitude of the long-term risks  
25 and opportunities of multiple scenarios and related regulatory developments across  
26 industry sectors, asset classes, and the total portfolio of the several systems; and

27 4. include any other information the Board of Trustees or  
28 Investment Committee deems necessary.

29 (iii) The State Retirement Agency shall post a report regarding the  
30 risk assessment on its website.
