11. Description and Purpose of Project (Limit length to visible area)

Purpose of the Project: Research has shown that outdoor play is important in elementary schools. It allows children to develop their imagination, dexterity, physical, cognitive, and emotional strength. Play is important as it allows children, at an early age, to engage and interact in the world around them. Description: The current state of the playground equipment used by grades K-2 is not safe, and has approximately 80% rust,. The grading of the playground area is uneven. Therefore, the equipment needs to be replaced, and the play area needs to be cleaned and prepped. The children need an environment that is safe for outdoor play.
