11. Description and Purpose of Project (Limit length to visible area)

This project is for the planning, design, construction, repair, renovation, reconstruction, site improvement and capital equipping of the Dinosaur Park. The mission of Dinosaur Park is to preserve, protect, and interpret paleontological resources via research and management of fossil deposits, and to provide hands-on public programs for the benefit of the citizens of Maryland. The park is a unique site in Laurel, Maryland, which preserves a rare deposit of fossils from the early Cretaceous period, about 115 million years ago. From the bones and teeth of the Maryland State Dinosaur Astrodon johnstoni to the remains of early flowering plants, the fossils found at Dinosaur Park help scientists reconstruct our regions ancient history.
