Analysis

Current Law/Background: The practice of physical therapy in Maryland is regulated by State Board of Physical Therapy Examiners. The board was created by the General Assembly in 1947 and is housed within MDH. The mission of the board is to protect the health, safety, and welfare of all Marylanders through the promotion and oversight of the Physical Therapy Practice Act. The board comprises eight members: five licensed physical therapists, one licensed physical therapy assistant, and two consumers.

Maryland Program Evaluation Act

The board is one of approximately 60 regulatory entities and activities subject to termination unless reauthorized periodically through statute. Under MPEA, these entities may also be subject to an evaluation by the Office of Program Evaluation and Government Accountability (OPEGA) within DLS prior to their termination. However, OPEGA may conduct an evaluation only if directed by specified entities or by legislation. The board is scheduled to terminate July 1, 2022; OPEGA was not asked to conduct an evaluation prior to its termination. Accordingly, the board has requested reauthorizing legislation.
