Analysis

Current Law: Generally, a Class 4 license holder must (1) own or have under contract at least 20 acres of grapes or other fruit in cultivation in the State for use in the production of wine or (2) if less than 20 acres are owned or under contract, ensure that at least 51% of the ingredients used in the annual production of wine are grapes or other fruit grown in the State. A license holder may (1) sell or serve specified types of food; (2) distill and bottle up to 1,900 gallons of pomace brandy made from available Maryland agricultural products; (3) purchase bulk wine and pomace brandy in a specified manner; (4) import, export, and transport its product; (5) store the product of other Class 4 limited wineries in a specified manner; and (6) produce wine and pomace brandy at a warehouse for which the license holder has been issued an individual storage permit if specified conditions are met. A Class 4 limited winery may only be located at the place stated on the license. Throughout the winemaking process, the licensee must maintain ownership of the wine or pomace brandy and ensure it returns to the location of the limited winery. The annual license fee is determined by the Alcohol and Tobacco Commission and may not exceed \$200.

Small Business Effect: Revenues for small business Class 4 limited winery license holders may increase as a result of additional allowances authorized under the bill.
