Analysis

Current Law/Background: Chapter 620 of 1994 created the State Acupuncture Board. The board (1) licenses acupuncturists, registers auricular detoxification specialists (ADS), and issues certificates to practice acupuncture on animals; (2) receives and resolves complaints regarding acupuncturists; and (3) sets standards for the practice of acupuncture. The board’s mission is to protect the public through the licensure and regulation of acupuncturists; ensuring that those seeking licensure and those continuing to practice acupuncture and East Asian medicine in Maryland meet State standards, and investigating

complaints when a violation is alleged. As of September 2023, the board regulated 1,213 active acupuncturists and 32 active ADS.

The board is one of approximately 60 regulatory entities and activities subject to termination unless reauthorized periodically through statute. Under MPEA, these entities may also be subject to an evaluation by the Office of Program Evaluation and Government Accountability (OPEGA) within DLS prior to their termination. However, OPEGA may conduct an evaluation only if directed by specified entities or by legislation. The board is scheduled to terminate July 1, 2025. OPEGA was not asked to conduct an evaluation prior to its termination. Accordingly, the board has requested reauthorizing legislation.
