Small Business Effect: Minimal.

Analysis

Current Law: Chapter 492 of 2020, a constitutional amendment approved by the voters at the November 2020 general election, authorized sports and event wagering, contingent upon implementation legislation passed by the General Assembly. Chapter 356 of 2021 implemented sports wagering in the State and provides for regulation of sports wagering and fantasy gaming competitions. Licensees receive 85% of proceeds from sports wagering and fantasy gaming and the State receives 15%, as well as license fee revenues. Any winnings on a sports event not claimed within 182 days after the wager is won revert to the Problem Gambling Fund.

Problem Gambling

Video lottery operation licensees must pay an annual fee of \$425 per video lottery terminal for a Problem Gambling Fund administered by the Maryland Department of Health (MDH), and SLGCC has established an annual fee of \$500 per table game for the Problem Gambling Fund. The Problem Gambling Fund is used to fund programs to treat and prevent gambling addiction. After satisfying specified requirements, any unspent funds in the Problem Gambling Fund may be expended by MDH on drug and other addiction treatment services.

The Maryland Center of Excellence on Problem Gambling is a program of the University of Maryland School of Medicine and funded by MDH's Behavioral Health Administration through the Problem Gambling Fund. The primary goal of the center is to minimize the risks and problems associated with gambling in the State.
