1. Adopt the following narrative:

Adopt.

Just Communities: SB 308 and HB 241 would authorize the Department of Housing and Community Development (DHCD) to designate areas meeting certain criteria as “Just Communities” that would be eligible for prioritization for State funding under programs to be identified by the Governor. The committees request that DHCD submit a list of communities designated as Just Communities. DHCD should also report to the committees on how the department plans to communicate these designations to the public.
