The Honorable Dereck E. Davis, Chair
The Honorable Kathleen M. Dumais, Vice-Chair
Committee on Economic Matters
Maryland House of Delegates
Annapolis, MD 21401

Re: Right to Repair -- HB 1124

Dear Chair Davis and Vice-Chair Dumais:

Consumer Reports¹ supports your committee's consideration of efforts to better ensure that consumers have the choice to fix their own electronic equipment, if they can, or to have it fixed by a repair servicer of their choosing, including servicers independent of the manufacturer. Our organization has long supported this "right to repair." And we have incorporated this principle into the Digital Standard, a set of best practices which we use to evaluate the privacy and security of software, digital platforms and services, and internet-connected products, as well as to help influence the design of these products.² It is important to safeguard and maintain consumers' ability to exercise their full rights of ownership over the products they purchase, including the right to repair them, and the right to resell them, even as technology evolves.³

Unfortunately, it's often difficult for consumers to make simple repairs on their expensive devices – even simple repairs such as changing a smartphone battery or replacing a cracked screen.⁴ Not only are electronics frequently designed in a way to intentionally prevent

¹ Consumer Reports is an independent, nonprofit member organization that works side by side with consumers for truth, transparency, and fairness in the marketplace. We use our rigorous research, consumer insights, journalism, and policy expertise to inform purchase decisions, improve the products and services that businesses deliver, and drive regulatory and fair competitive practices.

⁴ Bree Fowler, *iPhone Slowing Down? It Might be Time to Replace Your Battery*, Consumer Reports (Dec. 28, 2017), <https://www.consumerreports.org/smartphones/iphone-slowing-down-it-might-be-time-to-replace-your-battery/>; Becky Worley and Sarah Messer, *Cracked iPhone Screen Help Guide: How 5 Repair Options Stack Up*,

easy repair, but manufacturers are clamping down on access to the diagnostic and repair tools and the replacement parts needed to fix consumer electronic products. Some manufacturers even put digital locks on devices to block third-party repair. These tactics force consumers to rely on the manufacturer, or the manufacturer's chosen servicer, to fix these products. The manufacturer is then free to charge whatever it wishes, or even to refuse to repair the product and force the consumer to throw away the product and buy a new one.

We applaud Delegates Feldmark, Charkoudian, Ebersole, Hettleman, Hill, Hornberger, Korman, Lehman, Moon, Palakovich Carr, Shetty, Stewart, Terrasa, and Williams for their leadership in introducing HB 1124. We look forward to working with all of you to secure an effective right to repair for consumers.

Sincerely,

Maureen Mahoney
