

**SB791 COUNTY BOARDS OF EDUCATION - PREGNANT AND PARENTING STUDENTS - POLICIES  
AND REPORTS**

March 3, 2020

EDUCATION, HEALTH, AND ENVIRONMENTAL AFFAIRS COMMITTEE

**OPPOSE**

Jeanette Ortiz, Esq., Legislative & Policy Counsel (410.703.5352)

---

Anne Arundel County Public Schools (AACPS) opposes **SB791 County Boards of Education - Pregnant and Parenting Students - Policies and Reports**. This bill requires each local school system to designate a coordinator for education of pregnant and parenting students to assist pregnant and parenting students in accessing lactation accommodations, child care services, and other support services. The bill also requires each school to, among other requirements, provide 1) private lactation space in the school and 2) either onsite child care or referrals to safe, affordable, and reliable child care. Each local school board must collect specified information and submit it to the University of Maryland Institute for Innovation and Implementation, which must in turn submit an interim and final report by specified dates. The bill also expands the types of absences that must be excused for pregnant and parenting students.

AACPS supported legislation passed by the General Assembly in 2018 which required school systems to adopt a policy for pregnant and parenting students. The current law is very prescriptive. AACPS has adopted and successfully implemented this policy in accordance with the law. SB791 would impose significant new responsibilities and professional obligations on school personnel, create new legal liabilities arising from mandated referral procedures, place new demands on school transportation, and create an unfunded mandate. We firmly believe that such specific elements of service delivery are best suited to regulations, guidelines, and local policies and procedures.

While AACPS appreciates that this bill is well intentioned, we have concerns with several provisions in the bill. For example, we oppose the provision requiring schools to provide onsite child care referrals as this raises liability concerns. We also have serious concerns with the requirement to address any need for transportation accommodations. This additional requirement would certainly create an unfunded mandate. Additionally, school systems are currently facing a bus driver shortage and the potential for transportation needs are significant given the broad manner in which this provision is drafted. We also oppose the bill's mandate for a new staff position in each central office of each school system to fulfill these responsibilities.

Accordingly, AACPS respectfully requests an **UNFAVORABLE** committee report on SB791.
