Subject: A letter of support from the family

My ex husband is going to read this letter.

We support HB 1381 DANSHAUN'S LAW

it will bring hope to family's again. It's Justice for the unjustified. It would prevent office's from being able to cover up for each other. Prayerfully this law can help, let down the drawnbrige.

And we can be able to rebuild again as a whole.

The Anne Arundel County Police dorp the ball on numerous occasions. Let me read from a short list

1. Not giving the driver a breathalyzer on the scene
2. Request a toxicology screen be done on a minor deceased victim, who was not a legal age to even purchase a pack of cigarettes
3. Releasing false statements to the media about the minor descent
4. From the description of his clothes to riding a bike, when in fact he was standing towards the end of dunkin donuts parking lot, and a 4 foot bike lane. where he should have been protected by the laws that are in place for the state of Maryland.
5. Him having more than one autopsy

We're not pointing fingers, we would like for it to be acknowledge that mistakes were made. And for them to be acknowledged. It can happen by allowing us to feel, see and reading about some source of relief and to be reassured that Justice was served. In memory of our beloved DANSHAUN who lost his live. Way too soon, on a summer night by trying to get something cold to drank.

Sign a broken hearted family, still grieving the loss over our love one. DANSHAUN live for (14) short year, but his memory will live forever.
