

Chairman Clippinger, Vice-Chair Atterbeary, and Committee Members:

I am a mother to two teens in Severna Park. I have repeatedly testified this session supporting bills that protect the important role of parents in the minor's healthcare decisions. I see parental rights being stripped in other states and therefore I am very happy to see a bill like this in Maryland, that establishes the rights and important voice of the parent in all decisions regarding our minor children. Please support SB1242. Thank you!
