

I believe that HB1242 is the best bill introduced in Maryland this session! As a parent, I want to keep my rights to direct the upbringing, education, and care of my child.

I am upset that a Maryland mom sent her child to school and her child was given a birth control implant that made her ill. I am upset that this is allowed in Maryland and the parent and primary care physician are not involved in these important matters.

I also know many states have very controlling homeschooling laws. I do not want to see any of the home schooling laws change in Maryland.

Parental rights are important to every parent in Maryland. We need to be able to make decisions without being bullied or harassed by Child Protective Services. It is upsetting to read about the children abused and killed under the care of CPS:

[https://parentalrights.org/child\\_protective\\_services/](https://parentalrights.org/child_protective_services/).

Thank you for representing me and I respectfully ask you to support this bill!
