

> Dear Delegate Cox,

>

> I am writing you today to express my support for HB1242. As parents,
> we are the most qualified to make decisions regarding the care of our
> children. It is very important that the ability to be able to make
> decisions for our children remain in the hands of the people that know
> these individuals best. There are no decisions that can be made in the
> best interest for ALL children; each child is uniquely different and
> thus they must be treated so. Parents must be able to make their own
> informed decisions for each of their own children as they see fit.
> There is no such thing as a one-size fits all when it comes to a
> child's needs and this decision should not be left up to the states.
> There are always going to be outliers in every situation , but those
> rare cases should not set the bar for all other children. Thank you
> for you time and support.

>

> Sincerely,

>
