

## **HB0309**

**Cross-filed with SB0317**

**Naiya Mills Testimony 2/5/2020**

**Java Act for Frederick County Public Schools**

Good Afternoon my name is Naiya Mills and I am a Junior at Frederick High School in Frederick Maryland. I am here to talk about how this coffee bill will help me in school and in life. I have always been very bad at math and english class but have been very good at working. I was able to make coffee by measuring ingredients, getting supplies and serving to students in the school. When I found out that we couldn't serve coffee to the students anymore I was upset because it was something I was successful at. I was also looking to work at a store that sells coffee and use the skills I had been learning. Thank you for listening to me today and I hope you can see how much this means to students like me.
