

SUPPORT HB1171-Labor and Employment: Maryland Employee Protection Plan for Vaccine Refusal

I support HB1171. I am currently the only income for my family. I want to be able to make the best decisions for myself and my family, and at this time I am not certain taking the vaccine is the right decision. I want to be able to make those decisions without the fear of losing my income and am currently concerned I will lose my job if I refuse.
