

HB1171 – SUPPORT

I want to express my full support of HB1171. As an employee living in Anne Arundel County, I greatly fear employers mandating vaccines. When I was a 4-year-old child, I nearly died from receiving a vaccine and as a result of this, I am greatly afraid of receiving the COVID-19 vaccine. I don't believe it is an employer's place to tell an employee what they should or should not put in their body, especially if there may be adverse effects for that employee. I fear losing my job if employers are able to mandate vaccines. I urge you to please pass this bill and prohibit employers from mandating vaccines. Thank you.

Jocelyn St. Hilaire
