

HB1171 - Labor and Employment - Maryland Employee Protection Plan for Vaccine Refusal

SUPPORT

Dear Chair Davis, Vice-Chair Dumais, and all members of the Economic Matters committee,

I am writing to you to request a favorable report for HB1171. The decision of whether or not to get the covid vaccine should be made in consultation with one's healthcare provider and not with one's employer. The decision should be based on what is medically appropriate and not based on the threat of losing one's job. Particularly when people with a wide variety of medical conditions (such as myself) have not been studied in the safety trials at all yet.

Please support this bill to protect Maryland employees.

Thank you!

Sincerely,

Sandi Lancaster
Germantown MD
