

February 16, 2021

BILL: HB 33
TITLE: Climate Crisis and Education Act
POSITION: SUPPORT
HEARING DATE: 2/18/2021
COMMITTEE: Economic Matters
SPONSOR: Del. David Fraser-Hidalgo

Addressing our climate crisis requires a mix of market-based and government approaches to limiting the extent and effects of climate change in Maryland, the nation, and the world. HB 33 provides a pivotal component of this approach in our state. It has been carefully crafted to remedy potential impacts on low-income and vulnerable communities. It also ensures that the revenues raised will go to essential educational, community, and climate-related purposes.

As a 20-year Maryland resident, no issue matters more to me than the effects of climate change on our communities, state, and nation (and globe). I urge you to vote for this legislation. The futures of my son and other Maryland children hang in the balance.

Thank you,

For this reason and more, I urge a FAVORABLE REPORT on HB 33.

Respectfully Submitted.
