Environment and Transportation Committee

HB293

Natural Resources - Organized Killing Contests – Restriction

FAVORABLE

Statement from Joe Shannon in support of HB293:

I've been a hunter all my life. I am 87 now. I've seen foxes from my tree stand often and never ever shot one. No. Never. To hear of these brutal mass hunts of foxes, raccoons, and coyotes for cash rewards is disgusting! No sportsman or woman I know would ever do this! It must stop. I am in favor of legislation to stop this practice, SB200/HR293.
