

February 12, 2021

Senator Delores G. Kelley
Chair, Finance Committee
3 East
Miller Senate Office Building
Annapolis, MD 21401

Dear Senator Kelley:

I am writing to request your favorable support for SB 0460 “Economic Development – Advanced Clean Energy and Clean Energy Innovation Investments and Initiatives.”

I am currently a business and strategy consultant, who provides support for start-up enterprises with unique technology platforms, but whose founders require guidance regarding operations and product commercialization. Previously, I had a 30-year career working for W. R. Grace & Co. of Columbia, MD, where I was responsible for some of their largest catalyst businesses, as well as their technology development, strategy and product commercialization.

In 2020, I participated in a Maryland Clean Energy Center program called the Maryland Energy Innovation Accelerator. This unique program accelerates the commercialization of new technologies created in Maryland-based universities and Federal Labs with the goal of creating new Maryland-based technology and manufacturing businesses that will have a positive impact on Maryland’s climate goals.

For the past several months, I have been engaged by MEIA as an Executive in Residence, providing strategic guidance for HighT-Tech, LLC, a start-up organization that is currently receiving MEIA support. The company’s founders are professors at Johns Hopkins and UMD-College Park, where they have developed a unique technology with the potential to provide a variety of solutions for low-energy manufacturing of specialty materials, which will have applications as catalysts, battery components, specialized membranes, etc. All will have a positive impact on the environment, reducing carbon footprint and potentially enabling development of high-performance batteries.

This legislation provides baseline funding for the Maryland Clean Energy Center so that the Maryland Energy Innovation Accelerator can continue to accelerate Maryland-based technology and manufacturing businesses.

Your consideration and favorable support of SB 0460 will be much appreciated.

Sincerely,

Robert R. Gatte
