The Honorable Del. Shane Pendergrass, Chairperson
Health and Government Operations
Maryland House of Delegates
6 Bladen St. RM. 241
Annapolis, MD 21401

RE: **SUPPORT FOR HB 731** – Telehealth Services – Expansion

Dear Chairperson Pendergrass and Distinguished Members of the Health and Government Operations Committee:

I want to thank you for taking my written statement of support for HB 731 on telehealth reimbursement to be entered into the public hearing record. My name is Carol ZA McGinnis and I am an Associate Professor and mental health practitioner who resides and practices in Baltimore County, Maryland.

Reimbursement for telebehavioral health modalities is important to me because I am a Board Certified Telemental Health (BC-TMH) practitioner and I understand first-hand the challenge of providing services to people on Medical Assistance who need it. People who are disabled, live in remote areas, have expanded issues with travel due to poverty or severe mental illness are likely to benefit the most from this change in reimbursement for services that this bill represents.

We are still in the throes of a global pandemic and the need for health care and mental health services has never been greater. COVID-19 has revealed systemic flaws in our mental health services for providers and clients alike. It is imperative that we remove barriers to life saving services in a responsible and urgent manner.

This bill will update what Maryland health care services the Medical Assistance Program is required to provide through telehealth by broadening the circumstances under which the Program is required to provide telehealth and telebehavioral health. It is critical to update current Maryland code to align with best practices in our field by requiring certain insurers, nonprofit health service plans, and health maintenance organizations to reimburse health care services provided through telehealth.

While we are working to upload and implement the Counseling Compact in this state and throughout the U.S., this immediate action, removing barriers to critical supports and supporting mental health providers by broadening reimbursements in Maryland, is essential for the wellbeing of residents, families, and a social services system overburdened by staggering need.

I strongly urge you to support HB 731.

Sincerely,

Carol ZA McGinnis PhD, SIP, BC-TMH, NCC, LCPC
