TESTIMONY IN SUPPORT OF HBI 284
Johns Hopkins University - Police Department - Repeal

TO: Chair Clippinger, Vice Chair Atterbeary, and members of the Judiciary Committee
FROM: Ethan Hasiuk, on behalf of Jews United for Justice (JUF)

My name is Ethan Hasiuk. I live in Baltimore City, in District 43. I submit this testimony on behalf of Jews United for Justice (JUF) in support of HBI 284, Johns Hopkins University - Police Department - Repeal. JUF organizes more than 5,500 Jewish Marylanders and allies in support of local campaigns for social, racial, and economic justice.

Jewish tradition teaches us that destroying one life is akin to destroying an entire world. Yet Black and brown Marylanders face deadly over-policing and systemic harm every day. We believe that private police forces are generally a major step backward in the police accountability work that has been a focus of ours this session. And specific to this case, we believe that Johns Hopkins has not demonstrated adequate support or rationale for an armed police force.

According to its own website, the Johns Hopkins Police Accountability Board consists of 15 members, 13 of which "JHU leadership nominates."¹ Despite requests from students, faculty, staff, and community members, JHU has failed to create an Accountability Board with real independence from JHU leadership, and requests for real collaboration and accountability have been repeatedly denied. JHU leadership has failed to address the other concerns expressed in a petition signed by 6,000 Baltimoreans and JHU faculty, students, and staff.²

Johns Hopkins University did pause the development of the police department for at least two years in order to “benefit from the national re-evaluation of policing in society brought about by the death of George Floyd.”³ As the Baltimore Sun Editorial Board pointed out at the time, if safety were the real priority, JHU would have no reason to pause the police force, and if civil rights were the priority, JHU would cancel its police force entirely.⁴ With no clear rationale, direction, or accountability, the police department is simply too aimless and dangerous of a project to continue. **We respectfully urge this committee to report favorably on HBI284.**
