

## **Written Testimony**

I believe that armed police should not be allowed on Johns Hopkins University Campus, or on any university campus. I do not have faith in the University to uphold a Police department that will not cause harm to communities, including students and residents of the area. The training of the current security force has been inadequate. I personally have been sexually harassed by the Hopkins Security department, and it is common knowledge that they have profiled and mistreated students of color on campus. Hopkins needs to invest in different community solutions, and not more police for the city of Baltimore. As an alum of the University, I do not support Police on campus, and I support HB0336.
