

UNfavorable for HB0750

Vince McAvoy po box 41075 baltimore md

Dear Committee,

I urge an UNfavorable on HB750.

Very recent actions by a president who all believe is failing in capability is allowing dangerous immigration concerns. <https://www.12news.com/article/news/politics/ducey-to-homeland-security-i-have-significant-concerns-after-biden-repeals-trump-immigration-policy/75-063af75e-1155-460a-966a-30b18682b523> Recently, north of Baltimore city we had 7 murders related to illegals' gang-related criminal activity. Maryland state police has been on the trail of this for going on 16 years now. When illegal immigrants are viewed in court or in local agencies, often 9 zeroes is used in place of a social security number. Deportations don't include genetic tags to know who is coming back and forth across the border.

According to proponents who say they are trying to help illegal immigrants, they claim domestic violence is of concern. Here it is noted by CIS

So the Attorney General getting involved with these proceedings is wrongful as he is helping those exhibiting (at least one) criminal behavior.

In JPR, the bill for this is well over \$6 MILLION ...for the benefit of illegal immigrants?

In the COVID era ? When people – Americans –deemed “non-essential” were kicked off their jobs and delayed and /or denied their rightful unemployment benefits?

This bill is a slap in the face to legal resident taxpayers, many of which are finding themselves in food lines for the first time in their lives.

I urge the committee to handle the horrible mess the Governor has made of our economy through this lockdown. We have more than enough trouble in our own communities without letting Brian Frosh run amok.
