POSITION: SUPPORT

NARAL Pro-Choice Maryland urges the House Judiciary Committee to issue **HB0750 - Office of the Attorney General – Right to Counsel in Immigration Proceeding Coordinator** sponsored by Delegate Vanessa Atterbeary.

Our organization is an advocate for reproductive health, rights, and justice. It is our goals to protect all those of reproductive age, including pregnant and parenting individuals, within the State of Maryland. However, lack of legal representation for undocumented persons across Maryland has led to higher chances of family separation, a sad and inhumane violation of our organization’s values.

According to a study done by the American Immigration Council, after reviewing 1.2 million deportation cases in the U.S. over a span of six years, 63% of immigrants in those cases did not have access to legal representation for their trial.¹ This is a shockingly high percentage of those who enter the court system without legal representation, and with little or no English language proficiency. This same report also showed that “Depending on custody status, representation was associated with a 19 to 43 percentage point boost in rate of case success.”² Therefore, we know that representation gives the best chance to those facing removal proceedings. Denying these individuals every opportunity to adequately defend themselves in court is unjust and can lead to removals and family separations that otherwise would not have happened with attorneys present.

This legislation will make it mandatory for each immigrant facing removal proceedings to have access to legal representation for their trial. It gives the best chance to each individual to have their case heard fairly and justly in a U.S. court of law and can, according to the data, potentially lead to fewer instances of unwarranted family separations.

For these reasons, NARAL Pro-Choice Maryland **urges a favorable committee report on HB0750**. Thank you for your time and consideration.
