HB 1149 needs to be approved and I support it because the small business suffered more than can ever be recovered from the “2 week” declared State of Emergency that will probably last through the majority of 2021 as well. So planning now to also provide relief to those business for the 2021 tax year as this bill will do if passed, would be beneficial to the businesses as well as to the customers utilizing those business by helping to keep them in business. I completely support this bill and encourage the committee to APPROVE it as well.

Please pass this bill!

I approve completely!

Sincerely,

Nelda Fink
