## HB0722

The Maryland Society of Accounting and Tax Professionals would like to offer our support of HB0722 as this would give a tax break to all businesses in Maryland both large and small. We represent approximately 1700 small businesses who represent 150,00 small businesses. The passage of this bill would support small business immediately and provide some relief to the tax burden placed upon them.

I would be happy to discuss this further.
