House Bill 226: Public Schools-Self-Contained Special Education Classrooms-Use of Video Recording Devices

POSITION: Support

Hearing: Ways and Means 2/3/2022

I am in support of HB226 to allow cameras in self contained special education classrooms in Maryland. Surveillance cameras have become the cornerstone of security everywhere in today's world and schools are no exception. There are surveillance cameras in schools as a safety and security measure and a deterrent to crimes in our school hallways, front offices, gymnasiums, cafeterias and exteriors. Video surveillance in self contained special education classrooms will add a layer of protection for nonverbal students who can not come home and tell their parents about what happened to them in school as these specialized classrooms support many students who can not rely on speech alone to be heard and understood.

Camera surveillance footage would only be viewed when a concern of abuse, harm or neglect is alleged. The footage would be unmonitored and not viewed unless an incident is reported and the videos will not be used to monitor teacher pedagogy or student behavior and placement. Schools are also public spaces and individuals who work in public spaces have a low expectation of privacy. We send our kids to school to be educated in a safe environment and this does not always happen.

Four states (WV, TX, GA, LA) already have cameras in self-contained classrooms and we are hoping that you will support HB226 to ensure vulnerable students and teachers have a third eye to minimize harm to students and protect teachers from a false allegation. A third eye in these classrooms is necessary to determine what happened if a child comes home with bruises, bumps or injuries. We need cameras to be their voices!

Sincerely,

Amola Surya

Dear Mr. [Name],

WASHINGTON, D.C.

Monday, May 14, 2007

I am writing to you regarding the recent events at the school. I am a parent of a student at the school and I am very concerned about the safety of my child and other students. I have heard that there were some incidents involving students and staff members. I would like to know more about what happened and what is being done to prevent such incidents from happening again.

I am sure that you are doing your best to handle this situation. However, I believe that there should be a thorough investigation into the incidents. I would like to see a report on the findings of the investigation and the steps that will be taken to improve the school's safety. I also want to know how the school will ensure that all students and staff members are safe and protected.

I am sure that you will take the necessary steps to address my concerns. I am confident that you will do what is best for the school and its students. I am sure that you will keep me informed of any developments. I am sure that you will do your best to ensure the safety of all students and staff members. I am sure that you will do what is best for the school and its students. I am sure that you will keep me informed of any developments. I am sure that you will do your best to ensure the safety of all students and staff members.

Sincerely,
