**HB695 Environment - Climate Crisis Plan - Requirement**

**Submitted by Cedar Lane Environmental Justice Ministry**

**Position: FAVORABLE**

**This is such a common sense bill that it shouldn't even need thinking about; it is always better to be prepared than to have to repair the damage after its done. There is another reminder of the good this bill can do: "Think Globally, Act Locally. The Counties should deeply appreciate the action of the State in making this requirement.**

**CLEJM urges a FAVORABLE decision in committee.**
