

Testimony in SUPPORT of SB0903 – Renewable Energy Portfolio Standard
Qualifying Biomass and Thermal Biomass Systems

Dear Chair Kelley and members of the Finance Committee,

I support SB0903.

The Eastern Shore of Maryland will be subject to sea level rise before most of the area of the United States due to human induced climate change. This bill proposes actions in which Maryland will reduce it's subsidizing of technologies that produce greenhouse gas emissions, which are a major cause of human induce climate change.

My waterfront home is located on coastal bays of the Eastern Shore of Maryland. My home's existence and value are threatened by rising sea levels. Action is required by my state legislators to protect me and my family from future harm, which has been clearly identified by U.S. scientists.

Respectfully,

Joseph Jankowski
