

HB 779- Vaccination Requirements – Provision of Services – Statement of Prior Viral Infection

FAVORABLE

I SUPPORT THIS BILL!

Given now that CDC recognizes the protective effect of prior COVID-19 infection, it is time to update vaccination policies (for those entities that have already decided on them) and school or work-entry requirements across federal and state or county governments. Those with natural immunity should have equal status as those vaccinated. Demonstrating a prior infection is no more difficult than demonstrating vaccination. Natural immunity is BEST – and the way GOD intended!

What it is: Essentially, this bill would add natural immunity to public or private “vaccine passport” policies or requirements for entities that have already decided to do them.
