

HGO - HB779 - UNFAVORABLE

Chair Pendergrass, Vice Chair Pena-Melnyk, and the Health and Government Operations Committee;

I'm quite confused.

I hear from Republicans that private businesses should be able to do what they want.

They should be able to refuse to bake birthday cakes for gay couples, for example.

They should be able to decide that people don't need to wear masks inside.

So why shouldn't they be able to require people to be vaccinated against an easily contagious deadly disease that has killed 6 million people in the past couple of years?

I urge an Unfavorable Report for HB779.

Thank you.

Sincerely,

Debi Jasen
