I support House Bill 819 to keep individuals able to choose how they live and work without restrictions. Natural immunities can help prevent COVID-19 or other influenzas' greater than a vaccine could do. As a human I feel as we have the right to make that choice.

As a person who has an Autoimmune disease. I choose to defense COVID-19 or other influenza naturally. Also as someone who had covid before with no immune system, I recovered quite well.

Again I support House Bill 819 to prevent Vaccine Mandates and other restrictions on how individuals choose to prevent themselves from getting COVID-19 as the first amendment shall preserve.
