

SB 086

I oppose SB 086 as an infringement upon my 2nd Amendment rights to bear arms.

Stop chipping away at our freedoms and rights enshrined in the US Constitution. As a USAF combat veteran, I fought and my friends died to support and defend the US Constitution. Most American families have been responsible gun owners for the majority of our history. Young Americans are well known to provide food for their families and protect their families from enemies both foreign and domestic.

Our country was founded by young people. It is the youth upon which we lean for our military strength. Do not strip them of their freedoms and rights.
