Opposition Statement SB 131
Mandated Reports- Revisions
Laura Bogley, JD
Executive Director, Maryland Right to Life

We Strongly Oppose SB131

On behalf of our 200,000 followers across the state, we strongly object to SB131. No governmental department or program should receive annual funding appropriations without first providing the required annual report to the Maryland General Assembly. Because Maryland is one of only three states that waive abortion reporting requirements to the Centers for Disease Control, we must rely on departmental reporting to be able to measure the extent to which the state is providing for the needs of pregnant women, promoting prenatal health, and reducing risks to maternal health and maternal morbidity. Without annual reporting, the state will be derelict in its duty to assess the needs of pregnant women and families. For these reasons we urge your unfavorable report.

Pregnancy is not a Disease

Abortion is not healthcare. It is violence and brutality that ends the lives of unborn children through suction, dismemberment or chemical poisoning. The fact that 85% of OB-GYNs in a representative national survey do not perform abortions on their patients is glaring evidence that abortion is not an essential part of women's healthcare. Women have better options for comprehensive health care. There are 14 federally qualifying health care centers for every Planned Parenthood in Maryland. Abortion has a disproportionate impact on Black Americans who have long been targeted by the abortion industry for eugenics purposes. As a result abortion is the leading cause of death of Black Americans, more than gun violence and all other causes combined.

Love them both

This bill stands in conflict with the fact that 81% of Americans polled favor laws that protect both the lives of women and unborn children. Public funds instead should be prioritized to fund health and family planning services which have the objective of saving the lives of both mother and children, including programs for improving maternal health and birth and delivery outcomes, well baby care, parenting classes, foster care reform and affordable adoption programs.

Funding restrictions are constitutional

Taxpayers should not be forced to fund elective abortions, which make up the vast majority of abortions committed in Maryland. State funding for abortion on demand with taxpayer funds is in direct conflict with the will of the people. A 2022 Marist poll showed that 54% of Americans, both "pro-life" and "pro-choice" oppose the use of tax dollars to pay for a woman's abortion.

The Supreme Court of the United States, in *Dobbs v. Jackson Women's Health* (2022), overturned *Roe v. Wade* (1973) and held that there is no right to abortion found in the Constitution of the United States. As early as 1980 the Supreme Court affirmed in *Harris v. McRae*, that *Roe* had created a limitation on government, not a government funding entitlement. The Court ruled that the government may distinguish between abortion and other procedures in funding decisions -- noting that "no other procedure involves the purposeful termination of a potential life", and held that there is "no limitation on the authority of a State to make a value judgment favoring childbirth over abortion, and to implement that judgment by the allocation of public funds."

Overview

Under § 2-1209 of the State Government Article, the Department of Legislative Services is required to review all State laws that mandate reporting to the General Assembly or to the Governor and make recommendations for the repeal or modification of those laws. The review must be done in consultation with the entities required to submit the reports and must evaluate whether the reports are obsolete, duplicative, impractical, inefficient, or otherwise unnecessary. Additionally, the review must be completed on or before December 1 of the year immediately preceding the beginning of a term of the General Assembly. At the end of the review, the department is required to make its recommendations to the Legislative Policy Committee and prepare legislation to implement the recommendations.

In accordance with this requirement, the department performed the mandated reports review during the 2022 interim. The results of the review is included in this report. As required, draft legislation to implement the recommendations is included.
