Education, Energy, and The Environment Committee

**RE: Support HB525 Outdoor Preschool Licensing Pilot bill!**

Dear Honorable Education, Energy, and The Environment Committee:

My name is Colleen Grubb and I reside in Anne Arundel County, Maryland.

I am writing to urge you to support the House Bill to establish an Outdoor Preschool Licensing pilot. This bill has 13 co-sponsors and tremendous support in counties across Maryland! We need lawmakers to act by passing legislation to expand safe, equitable access to outdoor preschools as another form of high-quality early childhood education.

There are many urgent reasons why we need to pass the Outdoor Preschool Licensing Pilot bill:

- All children deserve safe, equitable access and the ability to choose outdoor preschool as an option for high-quality early childhood education;
- Children from low-income communities and those with special needs do not have equitable access to the Child Care Scholarship. Licensing is required for these families to use State scholarship funds to attend outdoor preschool. This is an environmental justice issue and unfair barrier that disproportionately impacts low-resourced families;
- Outdoor preschools offer an alternative that can help expand high-quality early childhood education options. Hundreds of child care programs closed during the pandemic leaving a shortage of child care across Maryland;
- Teachers and programs should be vetted for early childhood credentials, including specific training in health and safety, to operate. Without licensing, there is no oversight of existing outdoor preschools in Maryland; and
- Outdoor preschools promote skills and values that lead to environmental literacy, which supports goals of the *Maryland Partnership For Children In Nature* and the *K-12 Environmental Literacy Standards* required for graduation in Maryland.

I have three young grandsons. My daughter, a single parent living in Anne Arundel County, and I searched for affordable, preschool programs over the last several years. We found no available options. There are programs in Anne Arundel County that are excellent, but not available for new enrollees. There were options that were truly cost prohibitive – think in terms of tuition costs of University of Maryland for the three to attend. As a net result, my daughter did not work and stayed home with the children until elementary school started.

I urge you to vote in support of the bill to establish an Outdoor Preschool Licensing Pilot. The community needs more options for quality early childhood education.

Sincerely,

Colleen Grubb
