

Dear House,

I'm from Frederick County, and I strongly oppose HB 1232. This is a dangerous bill that is going to have some very negative consequences. It is an attempt to wipe away parental rights, and is fundamentally wrong. Parents and doctors TOGETHER are the only people that should be deciding on if and when their child should be receiving any kind of drug or medical treatment.

Please OPPOSE HB 1232!

Best,  
Stacy Pedersen
